

## Job Description: Regional Lead Practitioner for Maths

Reports to:	Principal
Responsible to:	Regional Director
Start date:	September 2019 or earlier
Salary:	Lead Practitioner pay range L6-L10 (£45,435 - £50,183)
Location:	Base schools are Ormiston Rivers Academy and Ormiston Park Academy. Regular travel between these academies will be required.
Contract:	Two year fixed term

### The Role

The Regional Lead Practitioner for Mathematics will promote and implement strategies for improving attainment in Maths across both Ormiston Rivers Academy and Ormiston Park Academy. Working in partnership with the regional school improvement team, Principals and Heads of Department, the role involves both a strategic overview of subject development across the region alongside day to day involvement with Maths departments. This will include activities such as coaching, planning, leadership development, modelling strong practice, data analysis, curriculum development, support with student intervention.

### Key responsibilities

- Provide outstanding teaching to key cohorts of students
- Support Heads of Department in each allocated academy as needed, ensuring agreed best practice is being followed, providing extra support and capacity where it is needed
- Support the development of teaching capacity within allocated academies, working in partnership with the academy's teaching and learning lead
- Work with allocated academies to ensure that the curriculum, delivery model and assessments being used are of the highest quality
- Work with academy staff to promote raised attainment and progress measures in Maths, with a progress target for each academy that shows outstanding outcomes for students
- Provide support to academy leadership teams and subject leaders to address underperformance in Maths departments
- Identify best practice locally, nationally and internationally in order to refine or bespoke the practice to the needs of the region
- Ensure that subject knowledge, curriculum understanding and pedagogy around GCSE and GCE specifications are facilitated in allocated academies
- Take part in monitoring and review work across the region as requested by the Regional Director
- Research and evaluate innovative curricular practices and draw on research outcomes and other sources of external evidence to inform own practice and that of colleagues
- Support with maths recruitment across the region as requested by the Regional Director

### Other

- Undertake other various responsibilities as directed by the line manager
